

How to Link Streaming Video to iLearn Courses

Streaming video reserves can be linked to iLearn Courses following 6 simple steps:

1. Access your streamed video from the video reserves portal <http://videoportal.aus.edu> (remember to log in using your AUS user name and password)
2. Select **copy link** from the share drop down menu

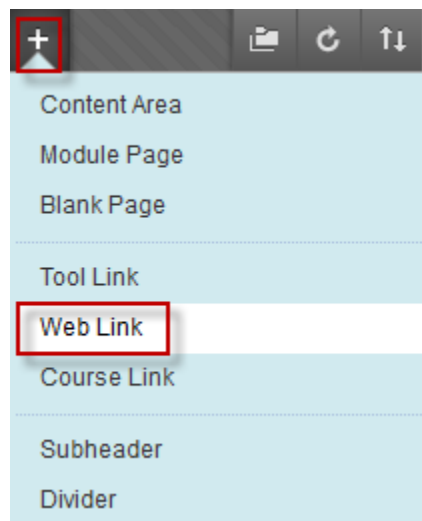

3. Copy the provided link for pasting to iLearn

4. **Log in** to iLearn and open your course

5. Select **Web Link** from the left hand navigation pane

6. Enter a **Name** for your web link, paste the streamed video **URL** address copied earlier, and ensure the video is made **Available to Users**. Next click **Submit**

A screenshot of a form titled 'Add Web Link'. The form has a light blue background. At the top, there is a dark toolbar with icons for a plus sign, a folder, a refresh/circular arrow, and a double-headed vertical arrow. The form contains the following fields and controls:

- A 'Name:' field with a red asterisk icon and a text input containing 'video title'.
- A 'URL:' field with a red asterisk icon and a text input containing 'http://videoportal.aus.edu/p.jsp?i=31'. This field is highlighted with a red rectangular border.
- Below the URL field, there is a note: 'For example, http://www.myschool.edu/'.
- An 'Available to Users' checkbox with a red square around it, which is checked.
- At the bottom right, there are two buttons: 'Cancel' and 'Submit'.

Your streamed video should now be available for student viewing through your iLearn course.
(Students will need to remember to log in to the video portal to do so)

Students – For help with accessing streamed videos contact: researchhelp@aus.edu

Faculty – For information on streaming video reserves, please contact your liaison librarian.
